

Business Analyst, MMPO

Job ID: 2524469 | Amazon.com Services LLC

Apply now

DESCRIPTION

Are you interested in engineering the metrics model that drives continuous improvement for Amazon's global delivery operations? Do you have solid problem solving skills, metrics-driven mindset and want to solve problems with solutions that will meet the growing worldwide need? Then Middle Mile Technology is the team for you. We are part of building the world's fastest, most reliable, and lowest cost transportation network that provides customers the most control and are looking for a top notch Business Analyst.

As a Business Analyst, you will develop solutions to drive insights and optimization for Network Forecasting and Scheduling. As a member of this team, you will have an opportunity to be a pioneer in Amazon Logistics and collaborate with a group of talented program managers, product managers, research scientists, software developers, and business members to design the Amazon network of the future.

This position requires innovative thinking, ability to quickly approach large ambiguous problems and apply reason, technical and engineering expertise to rapidly research, validate, visualize, prototype and deliver solutions. This position also requires significant cross functional work and integration with transportation, tech, operations and finance. Successful candidates should thrive in a collaborative environment.

As you further your career as a Business Analyst at Amazon, you will focus on improving corporate reporting frameworks and data visualization. This position will research performance data, discover and solve real world problems and build metrics and business cases to make strategic business recommendations. We are focused on your success and want to build and support passionate innovators within Amazon's Middle Mile. You can expect to leverage your methodical skills and have full ownership of the projects you work on.

Key job responsibilities

- Perform complex data analysis to identify opportunities to reduce fulfillment costs as well as improve efficiencies and customer experience
- Design, develop and establish KPIs to provide strategic insights to drive growth and performance
- Ability to perform/own reoccurring and ad-hoc business intelligence projects
- Develop standardized metrics to evaluate and benchmark pertaining to short and long term network planning and forecasting
- Communicate complex insights to stakeholders, both verbally and in writing

We are open to hiring candidates to work out of one of the following locations:

Bellevue, WA, USA

BASIC QUALIFICATIONS

- 3+ years of tax, finance or a related analytical field experience
- Bachelor's degree or equivalent
- Experience with Excel
- Experience with SQL

PREFERRED QUALIFICATIONS

- Master's degree in business or analytical discipline
- 5+ years of business analyst, data analyst or similar role experience
- Advanced knowledge in scripting with R, Ruby or Python

Amazon is committed to a diverse and inclusive workplace. Amazon is an equal opportunity employer and does not discriminate on the basis of race, national origin, gender, gender identity, sexual orientation, protected veteran status, disability, age, or other legally protected status.
